

PROTECT YOUR INVESTMENT

Although our boots are made using the highest quality leather, we recommend a good boot care routine to protect your investment and keep them looking good for longer.

Giving your boots the TLC they deserve will increase the water resistance and longevity of the leather.

When you're not putting them to work, we recommend storing your boots in a cool, dry place and don't forget to clean regularly, removing excess dirt.

FULL-GRAIN LEATHER

PROTECT

- Before the first wear, use a clean dry cloth to apply All-Weather Rossi Boot Wax in a gentle circular motion.

CLEAN

- Use warm water and a soft bristled brush to remove any stuck-on dirt.
- Then use a clean dry cloth to wipe away any excess dirt remaining.
 - Allow boots to air dry away from direct heat or sunlight.

CONDITION

- Once dry, condition using a clean dry cloth to apply All Weather Rossi Boot Wax in a gentle, circular motion.

SUEDE AND NUBUCK

PROTECT

- Before the first wear, apply a generous coat of All Weather Rossi Boot Suede and Nubuck Protector spray.
 - Allow to dry for 24 hours before wearing.

CLEAN

- Using a dry, soft bristled brush, gently remove dirt.
- Then use a clean dry cloth to wipe away any excess dirt remaining.
 - Allow boots to air dry away from direct heat or sunlight

CARE

- Once dry, apply two coats of All Weather Rossi Boot Suede and Nubuck Protector spray which acts as an invisible shield from water, dirt, oil and mud.
 - Allow to dry for 24 hours before wearing.
